Maximum number of participants

For this year we have a maximum of 42 boats for the containers.

If there are more than 42 boats, a reserelist will be kept.

Explanation of costs

All information needed for the Carnet A.T.A. is, that the deposit of € 2.000,- is the amount for each sailor's equipment. This individual amount multiplied by the number of boats in the containers (42 x 2.000,- = € 88.000,-) has to be transferred to an account available to Russian customs only. In case of non matching numbers of equipment between entry and exit of the container (e.g. only one mast or runner less on the way out) the money will not be returned to us! We also have no legal ways to fight for it. The same occurs if material is found in the container that is not listed. The container will be opened and checked visually (counting of equipment) and further will undergo weighing and X-Ray on both entry and exit.

Insurance

Please check in time that you will have a proper TPL-insurance for icesailing. This is not only necessary for the "big events" like WC and/or EC, but also for sailing on Lake Baikal.

- The liability cover must be at least € 500.000,-
- The certificate must clearly show that this insurance covers sailing with iceboats including race events and training races.
- The certificate must show, that the insurance covers **Worldwide!**
- The certificate must clearly show, that it is valid at least for the time of the event.

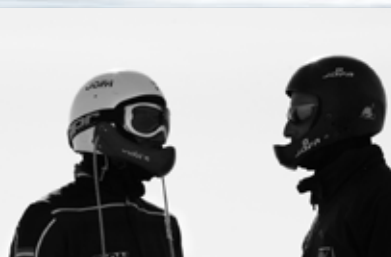

You can send your insurance to the IDNIYRA insurance manager, he will check your insurance and give you an ID, so you know your insurance will be oké. Tell him you going to sail on Lake Baikal.

Canceling you trip.

4 weeks before container departure (Container departure March 3th), unless a sailor from the waiting list or if there is not someone else replaces the canceling sailor the full transport fee cannot be refunded anymore.
